A DARIAH-CH event in collaboration with the SSH Open Marketplace Editorial Board

Are you a member of the DARIAH-CH arts and humanities community?

Do you want to promote the tools you have created or that you are using in your research, or share best practices for data management?

Join us!

Discover the programme [here](#).

SSH Open Marketplace workflows:

- are *sequences of steps* that one can perform on research data during their lifecycle
- are an *innovative way to disseminate* tools, services and datasets from a research field
- *bring into light* research methods
- are the living memory of what should be the *best research practices* in a given community

[Register here](#)

Create a workflow and win a travel grant to the [DARIAH-EU Annual Event](#)

(18-21 June, 2024 | Lisbon, Portugal) on *Workflows: Digital Methods for Reproducible Research Practices in the Arts and Humanities*

DARIAH-CH offers a **full travel grant** for the best workflow created during this workshop and published on the SSH Open Marketplace (more details [here](#)).
